Twenty-Fifth Annual **PRICE LIST**

—OF THE—

G. B. CUTLER SEED CO.

Marshall, Minn.

March 1st, 1943

In presenting you this 1943 Price List, we wish to thank all our friends and customers for their past patronage.

Our old customers are well acquainted with our ways of doing business, and you should ask the old, if in doubt, as to our square dealings.

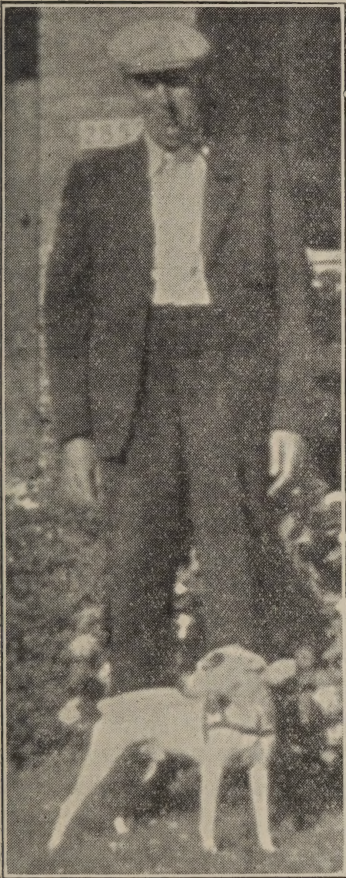

No Warranty.—We exercise extreme care in the filling of all orders, but we give no warranty, expressed or implied, as to the quality, description or productiveness, or any other matter of any seeds we send out, and will in no way be responsible for the crop.

Prices Subject to Change.—The prices quoted herein are based on market conditions at the time this list is issued and are subject to change without notice. We do not alter prices except in extreme cases, but if your list is an old one and you have occasions to presume that prices are either higher or lower, just write us for current list before ordering and we will supply one at once.

Orders Promptly Filled.—In case of delay you will be notified by letter explaining the cause of such delay and advised when shipment will be made. If you do not hear from an order sent us within a reasonable length of time, send us a duplicate, stating amount of remittance, and be sure to give your name and full address.

Terms of Sale.—Cash must accompany orders and should be in the form of Money Order or Bank Draft, Currency or Registered Mail, or Bank Check.

G. B. CUTLER SEED CO.

GEORGE AND JULIUS

A Message From George

As I have been in the seed business for the past twenty-four years, this is the starting of our Silver Anniversary. We are not going to have a great deal to say, only, to thank you all for the good business you have given to me in the past, hoping you will continue in the future, as I am in hopes to be here for some time to come.

I might repeat a few things I have told before. I was born at Marshall, Wisconsin. Lived on a farm until my folks came to Marshall, Minnesota in 1901, farmed here until I went into the seed game. The first location was the Old Catholic Church, handling nothing but seed corn. When we moved to our present location we added farm seeds. A few years later we enlarged the business by adding bulk garden seeds, also flower seeds. Our garden seed business has increased each year. We also sell tomato, cabbage, and sweet potato plants in season.

Last year we sold 23,000 tomato plants, 31,000 cabbage and 2,000 sweet potato plants to say nothing of a great number of onion plants and sets.

I may be a farmer again as I bought a Big Farm of 40 acres, a few months ago, east of Marshall. We never can tell what might take place as we must win the war. If I can help by raising more crops, I will sure do so. Perhaps I am like the farmer that a high powered salesman was trying to sell him a bicycle, to save gas and tires. The farmer not being interested replied, "I'd rather buy a cow." "But think," said the salesman, "what a fool you'd look riding about on a cow." Answered, the farmer, "Not half such a fool as I'd look trying to milk a bicycle."

This may not be the best year for a seedsman, as there no doubt will be a shortage of some varieties of seed. A little free advice wouldn't hurt anybody. I'll say it might be a wise thing to order your seed early whether you order from us or some

other place. Due to tire and gas rationing, if you are unable to get to Marshall we will gladly fill all mail orders of 50c or over post paid. We expect to carry a full line to start with, but never can tell how long the supply will last.

I will try not to let the following happen to you. A group of farmers were complaining about the bugs last summer. One farmer said, "the pesky critters et my whole crop up in two weeks." "Why, they et my crop up in two days, then roosted on the trees to see if I'd plant more," said another farmer. The seedsman over hearing the above, cleared his throat, piped up, "Gents," he said, "all that's very remarkable. Let me tell you, though, what I saw in our own store. A couple of bugs examining the books a week before planting time to see who had bought seed." Proves both farmers and bugs are no fools.

One more story, then I think I had better stop.

A farmer and his wife went to the Cities for a few days of sight seeing,

and when they checked out of the hotel the proprietor handed him a bill for fifty dollars. In turn the farmer declared he would pay only twenty-five dollars of it, as he had not eaten any meals at the hotel. "But they were here for you," insisted the hotel proprietor, and you offer to pay me only half-half my bill?" "Yes," retorted the farmer, "and you kissed my wife while we were here." The hotel man hotly replied, "I did nothing of the kind." "Well," the farmer said, "she was here for you."

Even though this is our Silver Anniversary we will gladly accept paper money as well as silver. One thing about seeds they are not rationed as yet, you can buy all you want just as long as we have any therefore be wise, order early and plant a large Victory Garden.

Looking forward to seeing you in at any time.

As always,

GEORGE

ALFALFA

Our seed all comes to us in sealed and branded bags, and is of the 1st grade. You have likely been hearing over the radio about the cheap seed you can buy. If you have, send for sample and see then if you want the grade of seed advertised.

Northern Grown Alfalfa

This does not need any explanation as everybody knows how good it is and every farm should have a few acres.

Do not buy Alfalfa seed that is offered cheap as it may be southern grown seed which is always cheaper than northern grown seed. The southern grown alfalfa, grown from this seed will not stand our cold winters.

This year the Minnesota law says that no Grimm's Alfalfa can be sold without a state seal so do not be misled by buying cheaper seed from some other state that does not have

that law. Our seed is the blue tag or the best grade, put up in towel bags 30 to 60 pounds each and the price for that kind of Grimm's Alfalfa is per lb. -----55c

Our Cossack Alfalfa, as perhaps you all know, is a hardy plant, as much so as Grimm's but makes a finer grade of hay.
Our price is per lb. -----55c

The Dakota 12 is nothing new, we all know about that.
Our price is per lb. -----50c

Nitragin

Inoculate your alfalfa and clover with Nitragin for best results.

1½ bushel size can -----30c
1 bushel size can -----50c

SWEET CLOVER SCARIFIER

Having installed a new, modern Scarifier we are able to do you a bet-

ter job and in less time than before. Bring in your Sweet Clover—have it scarified and cleaned. Our price is 80c per cwt.

Permanent Pasture Mixture

We can furnish you a mixture to suit all purposes at a very reasonable price. We cannot quote prices as we do not know just what mixture you need. Call and we will figure with you.

Lawn Grass

A mixture of grass seeds for any kind of lawns. Consists of: White Clover, Blue Grass, Red Top, Rye Grass.

Price, per lb. -----35c

Medium Red Clover

This seed is grown in Minnesota, cleaned in fine shape and is the best grade to be had.

First Grade, per lb. ----28c

Second Grade, per lb. --26c

Sweet Clover

All of this seed is scarified.

1st Grade, per lb. -----	11c
2nd Grade, per lb. -----	9c

Alsike

This is by all means the best clover for a low-land pasture.

Price per lb. -----	28c
---------------------	-----

Millets

Hungarian, per cwt. -----	\$3.50
Siberian, per cwt. -----	\$3.50
German, per cwt. -----	\$3.50
Japanese, per cwt. -----	\$5.00
Proso or Hog, per cwt. -----	

White Dutch Clover

This is the kind to sow on your lawn. Also good in a pasture mixture.

Price, per lb. -----	85c
----------------------	-----

GET THE HYBRID THAT STANDS UP!

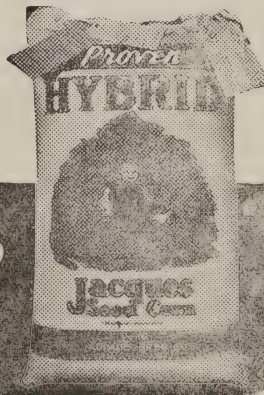

Famous for High Yields per Acre of Sound, Dry Corn; Uniformity of Good Ears of High Shelling Percentage; Well-Dented Kernels of Excellent Feeding Value; Strong, Deep-Rooted Stalks that Hold the Ears through Harvest.

- VARIETIES PROVEN FOR THIS SECTION
